

SITING FOR A MUSIC FESTIVAL IN NEW HAVEN

Zile Wu

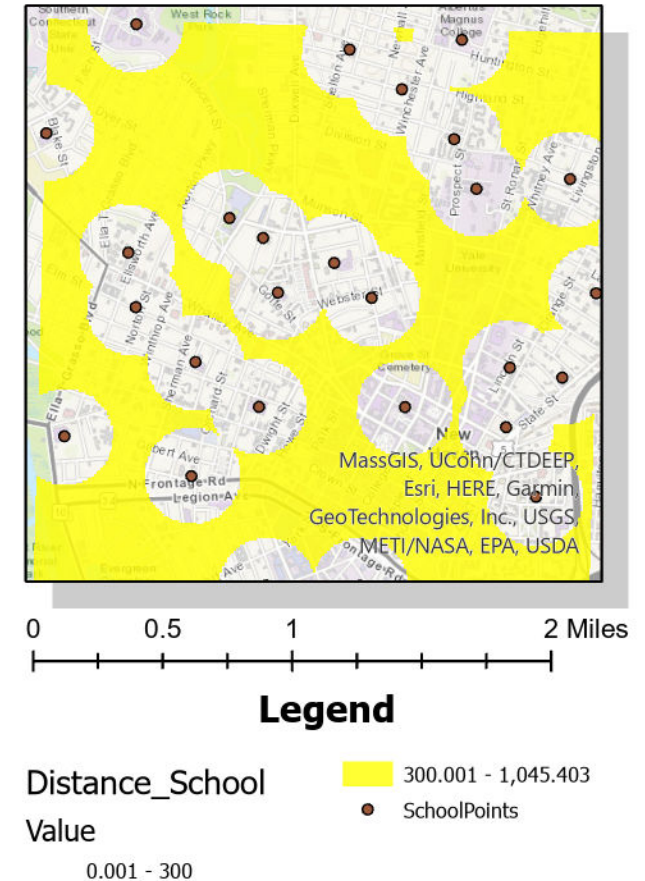

3-Requirements

- 1.Non-disturbing
- 2.Flat land
- 3.Convenient transportation

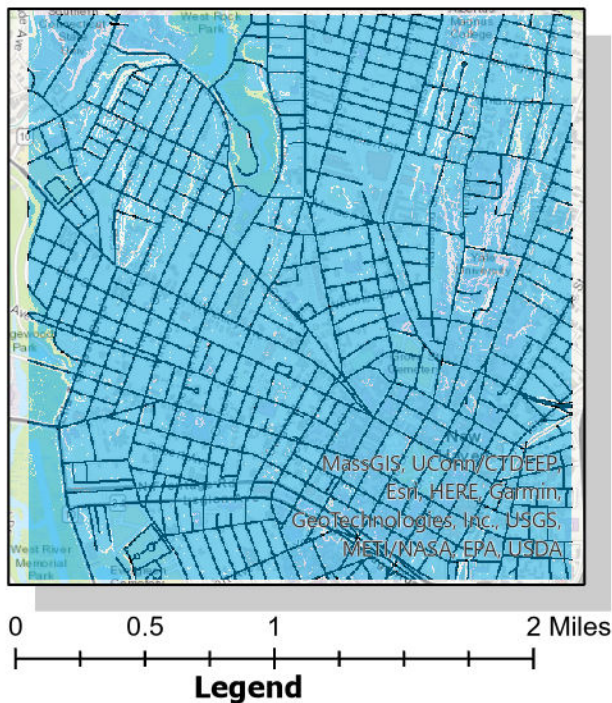

1.Non-disturbing-Resident

Because music festivals can generate considerable noise, they are not suitable as event venues within 250 feet of all buildings

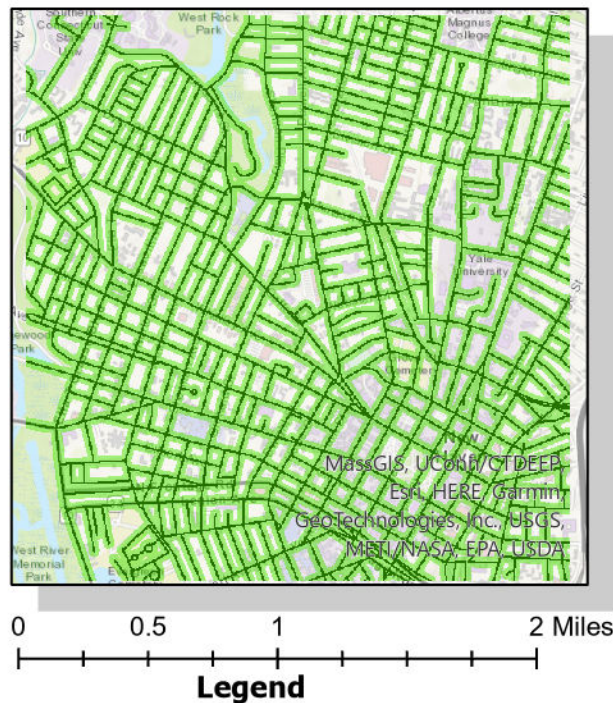

1.Non-disturbing-School

Also, in order not to interfere with normal school operations, the site should be located 300 feet away from the school site.

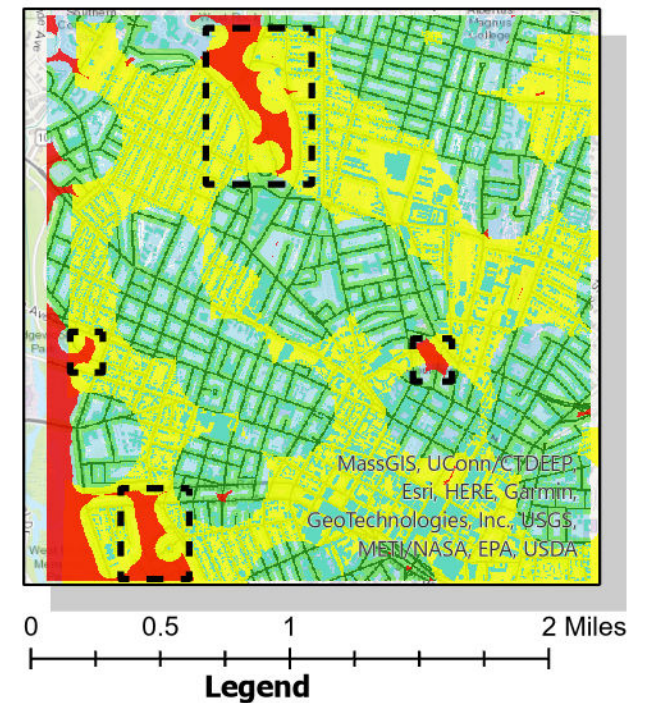

2.Flat land

For the consideration of stage construction and personnel activities, the site should be selected for areas with little slope. With a slope of 10° as the boundary, screen the areas that meet

3.Convenient transportation

Easy access for pedestrians, select land that can be accessed within 100 feet of the roadside as selection criteria

The final four potential sites were obtained. (all look like parks LOL)
